HERO ✅

Profitable paid ads

Backed by ex-Google talent

We’re Profit Mill, a B2B paid ads agency built by an ex-Googler. For nearly a decade, we’ve helped growth-hungry companies launch, track, and scale campaigns that drive real profit—not just clicks.

[Get a free paid ads audit]

LAUREL
LEAF

COMPANY LOGOS ✅

We've managed 1000+ ad accounts for companies like:

[Scrolling logos]

CHALLENGES WE SOLVE ✅

You don't just want more leads, you want more revenue

Clients come to Profit Mill when they want to:

Scale profit, not just ad spend

You're paying for clicks—but aren't making sales. We help fix the funnel to attract the right leads at the right price, so you can scale profitably.

Lean on a growth partner

You're not sure what works—and guessing is expensive. With 8+ years of experience working with (and for) major ad platforms, we know what drives growth and what wastes budget.

Gain insights to help you grow

You're running paid ads—but can't tie it to revenue. We give you clear attribution and regular insights to show you exactly where your spend is (or isn't) working.

SERVICES ✅

Start scaling on the right channels

Google Ads

Turn the world's most popular search engine into a revenue driver with full-funnel campaigns that attract high-intent traffic and convert it into paying customers.

LAUREL
LEAF

LinkedIn Ads

Reach the right customers with the most targeted ad platform. Craft campaigns and ABM strategies that cut through the noise, establish credibility, and convert decision-makers.

Other paid channels

From Bing to Reddit to G2, we help you test, expand, and win across the right mix of platforms—not just the obvious ones.

WHO WE'RE FOR ✅

Who we work with

We're perfect for…

- **Lead-hungry B2B startups & scaleups** with clear product-market fit, VC-backed or doing $1M+ ARR.
- **Ambitious VCs, founders, and marketing leaders** who are fed up with shady ad reps and flaky agencies, and want to work with a strategic partner that actually 'gets it'.
- **Companies ready to go all in on paid ads** and see this as an investment in incremental, scalable marketing growth.

We're not the right fit if…

- **You're a paid ads skeptic or looking for a quick fix.** To get the results you want, you need to be fully committed to optimizing your entire marketing funnel alongside your ads (that's something we'll help you do).
- **You expect paid ads to be a magic bullet.** Performance marketing can accelerate growth, but it can't fix fundamental issues with your product, messaging, or sales process.
- **You don't know who your ideal customer is.** Are you at an early stage and still figuring out your product/market fit? Then paid ads might not be the right investment *right now* (but it will be soon).

OUR PROCESS ✅

How we do things with The PROFIT Plan™

The PROFIT Plan™ is our foundational framework for launching, optimizing, and scaling your paid ads.

Positioning clarity: We start by nailing *who you are for* and *why buyers should click*, so every ad attracts the right type of customer (and filters out the wrong ones).

Revenue attribution: No matter your pricing plan, we implement complete conversion tracking that ties every impression, click, call, and deal back to actual revenue.

Omnichannel targeting: Nurture audiences by appearing across search, social, and review sites so you remain top-of-mind when they're ready to buy.

Funnel velocity: We optimize each step—from ad copy to landing page—to make it easier for potential buyers to convert.

Intent activation: Capture existing demand and *create* new demand with tailored content and offers.

Testing for scale: Structured experiments iterate creative, bids, and audiences every week, not once a quarter.

[See our pricing plans]

PROOF POINTS ✅

Why clients say we're the "real deal"

ROI-obsessed
We're here to increase your profit, not just your ad spend. That's why we're called Profit Mill—our ultimate goal is to help B2B businesses generate profit from paid ads.

Ad platform experts
Founded by an ex-Googler, our team of big tech alumni has managed 1,000+ ad accounts. We know exactly what works (and what doesn't) in paid media.

Full-funnel marketing support
Just running paid ads won't deliver the results you want. We help optimize your landing pages, website, and marketing funnel—so every click has a better shot at converting.

Flexible contracts
No long-term lock-in, just flexible monthly contracts. Paid ads deliver results fast, so you'll know within weeks if it's working. If it's not a fit, we part ways. Simple as that.

Direct communication

LAUREL
LEAF

Think of us as an extension of your team. Through weekly syncs, async video updates, and Slack support, we're always available to answer questions and share performance updates.

Meaningful insights, not vanity metrics
You'll get clear, jargon-free reports that focus on the metrics that drive revenue, not just clicks or impressions.

FAQs ✅

FAQs

What is your pricing model?
We offer three pricing packages starting at $3K/month—built to match your stage and growth goals. You can check out the details on our Pricing page [Pricing page].

Not sure what's right for you? Book a free audit [Contact page] and we'll point you in the right direction.

How do I know if I'm ready for paid ads?
You're ready if you have a validated market fit and budget to test and optimize — not just buy leads overnight. You'll also need clear messaging and a well designed landing page, but we can help you with all that.

Can you help with the visuals and creative for ads?
Absolutely. While we focus on strategy and performance, we have a network of trusted creative partners to help you craft assets that actually convert.

LAUREL
LEAF

What paid ad platforms do you support?
We support our clients with all of the paid ad platforms out there, especially the ones used extensively for B2B marketing:

- LinkedIn Ads
- Bing, Meta, Reddit
- G2, Capterra, and other B2B review channels
- SEO
- Content marketing

If we don't have the expertise in-house, we reach out to our extensive network of highly skilled subcontractors to accomplish your goals (e.g. website redesigns, graphic creation, complex technical integrations, etc.).

What kind of businesses do you work with?
We work with B2B and B2B2C companies focused on lead generation—including PLG startups, SaaS platforms, AI companies, and professional service businesses. Whether you're in tech, healthcare, or consulting, if your goal is to turn paid ads into pipeline, we're a great fit.

We don't work with e-commerce brands, but if that's you, we're happy to recommend someone who does.

How often will you be in touch?

You can choose from two options:

- Regular weekly or bi-weekly meetings, depending on your needs.
- Async catch ups via Slack with the option for ad-hoc meetings as needed.

Plus we're always available to answer questions when they arise.

How long until I start seeing results?

It usually takes 1–3 months to build and test a profitable ad engine. That said, you'll start seeing improvements in tracking and campaign performance within the first 1-2 weeks of working together.

The exact timeline depends on your industry, competition, and current marketing setup—but we'll give you a clear and honest outlook from day one.

2. About [Who we are]

URL:	www.profitmill.io/about
Meta Title:	Strategic Paid Media Growth for Startups | Profit Mill
Meta description:	Learn how Profit Mill helps startups and scaleups accelerate growth through smarter paid media. Led by ex-Google experts, built for founders and marketers ready to scale.

OUR MISSION ✅

We're here to drive profit, not ad spend

Profit Mill helps high-growth teams turn ad spend into actual revenue with fully-integrated paid media campaigns.

FOUNDERS POV/ORIGIN STORY ✅

[Photo of Peter on one side]

How we started

After nearly a decade at Google working with 1,000+ ad accounts and partnering with hundreds of agencies of every size, I saw the same issues again and again. Agencies chasing spend, avoiding accountability, and doing what was easy instead of what was right for the client.

So I started Profit Mill to do things differently.

LAUREL
LEAF

I built this agency to be the kind of partner I always wished I saw more of: honest, hands-on, and focused on outcomes that actually matter. That means

- ➔ Clear pricing that reflects the complexity of the work—not vague percentages.
- ➔ Meeting our clients in the trenches on Slack—not just showing up for a weekly call.
- ➔ Doing right by our clients no matter what—not just when it's good for our bottom line.

Because when our clients win, we win. Simple as that.

OUR VALUES ✅

What we stand for

These are the values we live by

[Blocks per value]
Tell it like it is
We speak our minds because we care. Clear direct feedback is how we move faster, collaborate better, and build a partnership based on trust (and performance).

Be a true partner
We never leave you wondering where things stand. Expect Slack access, regular calls, async updates, and unlimited questions — because growth doesn't wait for a scheduled meeting.

Keep it realistic
We'd rather exceed expectations than inflate them. Our goals are always realistic, time-based, and measurable, not just what sounds good on a sales call.

Deliver outcomes not optics
We don't do busywork or chase vanity metrics. Every move we make is tied to real business goals—and we expect the same from the teams we work with.

Know when to walk away
We operate on a monthly model, no long-term lock-ins. If it's not a cultural or strategic fit, we can part ways. And if we're not adding value, we'll bow out before your budget pays the price.

Stay curious and keep evolving
We know what works, but we're also obsessed with what's next. Whether it's AI or the latest marketing trends, we stay curious and keep evolving—because the best agencies don't sit still.

Own the results

We own the wins, the misses, and everything in between—because trust takes months to earn and seconds to lose. And we're here for the long game.

[Case Studies]

FAQs ✅

FAQs

LAUREL
LEAF

How much ad spend do I need on top of your fee?
We typically recommend $3,000/month as a healthy starting spend on Google or LinkedIn. If your spend is lower than that, the data comes in too slowly to make smart decisions. Actual cost can vary depending on the level of auction competition and the estimated cost per click.

Do your fees scale with ad spend?
Our fees scale in tiers that align with your ad spend and the level of support you need. Smaller budgets typically fit into our Explore plan, while higher spend ranges unlock additional services like multi-channel management, landing page creation, and advanced tracking. This way, pricing stays predictable and you only move up a tier when your ad spend and service scope increase.

Is there a minimum contract length?
We work month-to-month. Most clients stay with us well beyond that, but we don't lock you into long-term contracts. While we recommend committing to at least 3 months to gauge performance, you'll know if it's working within the first few weeks.

Do you charge additional setup fees?
No, what you see is what you pay. No setup fees or hidden costs. Our onboarding, conversion tracking setup, and campaigns are included in your monthly retainer.

How do I know which package is right for me?
It comes down to your company stage, budget, and ambition for paid ads. Early-stage teams who are just starting paid ads usually start with Explore, while Series A+ companies go for Invest or Scale. If you're unsure, book a call and we'll point you to the right fit.

What if I need to upgrade or downgrade later?
No problem. Our flexible monthly contracts let you move between packages as your budget or growth goals change.

How quickly will I see results?
You'll start gaining insights within the first 1–2 weeks of working with us. Meaningful results like qualified leads, pipeline, revenue signals usually come in 4–8 weeks depending on your sales cycle.

Can you guarantee results?
We don't guarantee specific results and no serious agency should. What we do guarantee is a proven process, clear reporting, and a decade of experience running paid ads for B2B teams. Most clients know fairly quickly if it's working.

Do you work with businesses of my size/industry?

LAUREL
LEAF

We specialize in B2B business, namely SaaS, PLG, and service companies from Seed stage to Series B+. If you're an ambitious team looking to scale with paid ads, we can probably help.

Why are your fees higher/lower than other agencies?
We're not the cheapest option, and we're not trying to be. Unlike freelance or junior teams, you're getting performance marketing experts with years of in-house experience. That means fewer wasted dollars, faster insights, and strategies that scale.

Do you just run ads, or can you help with creative and landing pages too?
We go beyond ad execution. Depending on your plan, we can handle everything from ad copy and creative to landing pages. You'll get strategic input throughout—and if you'd prefer to work with your own team, we're happy to collaborate or connect you with trusted experts in our network.

Do you work with small businesses?
We work best for high-growth B2B and B2C2B companies—especially those with a product-led motion and clear demand signals. If you're still pre–product-market fit or don't yet have the budget to scale profitably with paid ads, it's probably too early to work with us. But if you're seeing traction and ready to capture that demand, let's talk.

Why does your Explore plan only include Google or LinkedIn? Can I start on a different channel?
After working with 1000+ ad accounts, we see the same pattern. Clients who have budget constraints need results fast to prove paid ads are worth the investment. They're looking for short-term profit over long-term growth, and the most effective way to drive ROI early is to focus on <u>one</u> high-intent channel—Google Ads or LinkedIn Ads—before expanding.

Whether you start with search or social depends on your offer and audience. Either way, we help you nail the foundation first, then scale from there.

PROFIT MILL POV ✅

Why top B2B teams choose Profit Mill

You don't need another agency chasing clicks or running on autopilot. You need a strategic partner you can trust to drive real growth.

After managing 1,000+ ad accounts at Google, we built Profit Mill to be the agency we wish existed—one built for outcomes, not optics.

Here's what that means for you:

- **Clear tracking from day one** so every dollar spent ties back to revenue, not just traffic.
- **Full-funnel strategy** that aligns your ads, messaging, landing pages, and buyer journey.
- **Regular performance insights and async updates** that keep growth moving—without waiting for a meeting.

OTHER ALTERANTIVES ✅

How Profit Mill compares to other paid ad options

LAUREL LEAF

	In-House Hire	Freelancer	Traditional Agency	Profit Mill
Services	Usually generalists, not specialists	Expertise but solo bandwidth	Limited market perspective	**Performance experts with 20 years at Google & LinkedIn**
Price	High cost (salary, benefits, & tools)	Low but can fluctuate	Bloated retainers	**Fair and predictable cost**
Speed	Lengthy hiring process	Typically moves fast	Slow onboarding	**Launch in 1-2 weeks + regular reporting and optimization**
Quality	Depends on the individual	Execution only	Old playbooks, lackluster execution	**Full-funnel strategy + execution from platform experts**
Availability	Limited (often stretched thin)	Varied and low touch	Often hands-off after onboarding	**Slack access + regular calls for fast collaboration**

4.1 Services - Google Ads

URL:	www.profitmill.io/**google-ads-agency**
Meta title:	Google Ads Agency for B2B SaaS | Profit Mill
Meta description:	Run profitable Google Ads with ex-Google strategists. Profit Mill handles setup, strategy, and attribution to bring in better leads and more profit.

HERO ✅

The Google Ads agency built by an ex-Googler

Most agencies follow the playbook—we helped write it. With 1,000+ accounts under our belt, we bring the strategy, technical setup, and full-funnel optimization to make Google Ads your most profitable paid channel.

[Get a free paid ad audit]

SERVICES ✅

Google Ads that drive sales, not just clicks

Profit Mill helps growth-hungry teams set up Google Ads to:

✔️Capture buyer demand that's already there

✔️Scale paid campaigns after hitting product-market fit

✔️Reduce CAC and improve ROAS across funnel stages

✔️Build campaigns that you can attribute directly to profit—not just clicks

HOW IT WORKS ✅

Ready to get started? Here's how we work

1. **Free ad audit**
   We start with a full review of your Google Ads and evaluate based on **budget**, **competition**, and **demand** to see exactly where you're losing money (or missing opportunity).

2. **Quick intake**
   We set you up with everything: conversion tracking setup, campaign structure, and keyword strategy. Plus align messaging across the full buyer journey.

3. **Launch and learn**
   We go live quickly and assess performance within the first 1–2 weeks, then optimize based on real data.

4. **Scale what works**
   Once your Google Ads are dialed in, we expand your strategy across other paid channels to sustain and grow results.

DIFFERENTIATORS ✅

Don't settle for run-of-the-mill. Work with Profit Mill.

Here's why Google Ads with Profit Mill outperform the rest:

Expertise from 8+ years at Google
We've managed 1,000+ accounts from inside the platform—giving us strategic insight most agencies don't have. We don't just follow best practices, we wrote the book on them.

LAUREL
LEAF

Strategy to improve your marketing—not just your ads
We connect messaging, landing pages, and targeting to the bigger picture—making sure your entire funnel is working toward one thing: increasing profit.

Launch fast and learn what works
We launch fast, track performance, and keep you in the loop via Slack, calls, and async updates so we can optimize as soon as we see what's working.

CUSTOMER WINS ✅

Not to brag... but we deliver results

[Case studies featuring Google Ads clients]

FAQ ✅

FAQs

What exactly does Profit Mill do for my Google Ads?
Profit Mill takes care of your Google Ads by setting up, managing, and tracking your campaigns so you spend less on unqualified leads and more on results that increase profit. Your account is in the hands of a Google expert who really knows the ropes.

How does the free Google Ads audit work?
We'll give you a free ad audit—no commitment, no pressure. You share read-only access and our experts will review your current ads setup and suggest improvements. No matter what, you'll get a better idea of what's working (and what isn't) and if scaling paid ads makes sense for you right now.

How does Profit Mill make Google Ads profitable?
We focus on targeting people who are really interested, so you stop throwing money away on clicks that don't convert. We fine-tune your campaigns using offline conversion tracking, keyword monitoring, and refined ad copy.

What's different about managing Google Ads with Profit Mill compared to hiring in-house or going with a freelancer?
In-house teams have narrow scope. Freelancers have limited bandwidth. With Profit Mill you get hands-on expertise from a team who knows Google Ads inside and out.

We bring the strategic perspective of an agency with the ownership mindset of an internal hire—plus a proven process that scales across multiple channels.

Am I locked into a long-term contract?
Not at all. For best results, we usually recommend making a 3 month commitment to paid ads. But our month-to-month contracts make it so you can change course at any time and are always in control of your ad spend and campaign performance.

HERO ✅

LAUREL
LEAF

The LinkedIn Ads agency built for B2B growth

LinkedIn Ads are the best way to fill your pipeline with high-quality leads—if you know what you're doing. From ABM funnels to cold-to-close campaigns, we help everyone from B2B brands to scrappy startups turn LinkedIn into a high-ROI channel.

[Get a free paid ad audit]

SERVICES ✅

Stop boosting posts. Start booking meetings.

Profit Mill helps B2B businesses set up LinkedIn Ads to:

✔️Create a category and capture demand in the right niche

✔️Launch cold-to-warm ABM sequences that convert customers

✔️Go beyond surface-level job titles to target B2B decision makers

✔️Build credibility in competitive categories

✔️Drive qualified pipeline, not just MQLs or impressions

HOW IT WORKS ✅

Ready to get started? Here's how we work

1. **Free ad audit**
   We start with a full review of your LinkedIn account and evaluate based on budget, competition, and demand to see exactly where you're losing money (or missing opportunity).

2. **Quick intake**
   We build account-based campaigns around your key personas, segments, and sales goals. From copy to creative, we help you design every touchpoint to convert.

3. **Launch and learn**
   We go live quickly and assess performance within the first 1–2 weeks, then optimize based on real data.

4. **Scale what works**
   Once your campaigns are humming, we help you scale efficiently by layering in Google, G2, or retargeting channels.

DIFFERENTIATORS ✅

Don’t settle for run-of-the-mill. Work with Profit Mill.

Here’s why LinkedIn Ads with Profit Mill outperform the rest:

Expertise from inside Linkedin
Our LinkedIn experts have strategic insight most agencies don’t have. We don’t just follow best practices, we wrote the book on them.

Strategy to improve your marketing—not just your ads
We connect messaging, landing pages, and targeting to the bigger picture—making sure your entire funnel is working toward one thing: increasing profit.

Launch fast and learn what works
We launch fast, track performance, and keep you in the loop via Slack, calls, and async updates so we can optimize as soon as we see what’s working.

CUSTOMER WINS ✅

Not to brag... but we deliver results

[Case studies featuring LinkedIn Ads]

FAQ ✅

FAQs

What exactly does Profit Mill do for my LinkedIn Ads?
We run LinkedIn Ads that reach the right people, build trust over long sales cycles, and influence enterprise deals that pay off down the line. Whether you’re launching a new market or targeting niche buyers, we set you up with the strategy, tracking, and optimization to stay top of mind with the prospects who matter most.

How does the free LinkedIn Ads audit work?
We’ll give you a free ad audit—no commitment, no pressure. You share read-only access and our experts will review your current ads setup and suggest improvements. No matter what, you’ll

get a better idea of what's working (and what isn't) and if scaling paid ads makes sense for you right now.

How does Profit Mill make LinkedIn Ads work for B2B?
We use LinkedIn Ads to reach the exact people your sales team wants to talk to—whether that's decision-makers at enterprise companies or niche buyers in emerging markets. Our approach is rooted in Account-Based Marketing (ABM), meaning we tailor campaigns to influence key accounts, build awareness across buying committees, and support long sales cycles with consistent, targeted messaging.

What's different about managing LinkedIn Ads with Profit Mill compared to hiring in-house or going with a freelancer?
In-house teams have narrow scope. Freelancers have limited bandwidth. With Profit Mill you get hands-on expertise from a team who knows LinkedIn inside and out. We bring the strategic perspective of an agency with the ownership mindset of an internal hire—plus a proven process that scales across multiple channels.

Am I locked into a long-term contract?
Not at all. For best results, we usually recommend making a 3 month commitment to paid ads. But our month-to-month contracts make it so you can change course at any time and are always in control of your ad spend and campaign performance.

Meta description:	Profit Mill helps you leverage channels like G2, Bing, Meta, and Reddit—with strategy that keeps your funnel focused and profitable.

Extend your reach with other paid media channels

Ready to tap into new audiences? We help you reach niche buyers, build remarketing audiences, and drive full-funnel growth through channels like G2, Meta, Bing, and Reddit—without wasting time or budget.

[Get a free paid ad audit]

SERVICES ✅

Expand to new channels. Keep a strategic focus.

Target niche buyers and capture more relevant traffic. We'll help you identify and activate the right channels based on your product, audience, and growth goals.

✔️**G2 & Capterra** → Capture high-intent buyers already comparing solutions
✔️**Bing** → Reach untapped, high-intent audiences at a lower cost
✔️**Meta (Facebook/Instagram)** → Expand retargeting or test bottom-of-funnel paid social
✔️**Reddit** → Tap into niche communities with contextual targeting
✔️**X (formerly Twitter)** → Drive awareness with timely, interest-based targeting

HOW IT WORKS ✅

Ready to get started? Here's how we work

1. **Free ad audit**
   We start with a full review of your paid media accounts and evaluate based on budget, competition, and demand to see exactly where you're losing money (or missing opportunity).

2. **Quick intake**
   We identify which channels make sense based on your funnel, budget, and audience. Then set you up with everything: tracking, conversion setup, campaign structure, and strategy.

3. **Launch and learn**
   We go live quickly and review performance within 1–2 weeks, then optimize based on real data.

4. **Scale what works**
   Once we see what's working, we scale spend and double down on the channels that are driving results.

DIFFERENTIATORS ✅

Don't settle for run-of-the-mill. Work with Profit Mill.

Here's why paid ads with Profit Mill outperform the rest:

Platform expertise from industry experts

We've managed 1,000+ accounts from inside the platform—giving us strategic insight most agencies don't have. We don't just follow best practices, we wrote the book on them.

Strategy to improve your marketing—not just your ads

We connect messaging, landing pages, and targeting to the bigger picture—making sure your entire funnel is working toward one thing: increasing profit.

Launch fast and learn what works

We launch fast, track performance, and keep you in the loop via Slack, calls, and async updates so we can optimize as soon as we see what's working.

CUSTOMER WINS ✅

Not to brag... but we deliver results

FAQs ✅

LAUREL
LEAF

FAQs

Are we even ready for paid ads on other channels?
Maybe. Maybe not. We'll take a close look at your funnel, budget, and sales process to see if channels like Meta, Reddit, or Bing make sense for your goals, or if you should just double down on what's already working.

We've only run Google or LinkedIn ads. Will expanding just waste budget?
Not if you do it right. We help you layer in the right channels—strategically, not blindly—so your spend goes where ROI is strongest. Think expansion, not explosion.

Why not just hire in-house or go with a freelancer?
In-house teams have narrow scope. Freelancers have solo bandwidth. We bring the strategic perspective of an agency with the ownership mindset of an internal hire—plus a proven process that scales across multiple channels.

Will this take a lot of our time?
Nope. With your strategic input we can make decisions quickly and handle execution so you don't have to. You'll stay looped in with async updates and regular reviews—but we don't need your calendar to run ads that perform.

How does the free ad audit work?
We'll give you a free ad audit—no commitment, no pressure. You share read-only access and our experts will review your current ads setup and suggest improvements. No matter what, you'll get a better idea of what's working (and what isn't) and if scaling paid ads makes sense for you right now.

How does Profit Mill make paid ads profitable?
We focus on targeting high-intent buyers, unique audiences, or ideal personas that you want to go after—so you stop throwing money away on clicks that don't convert. Then we fine-tune your campaigns to make sure you're bringing in quality leads that turn into real business.

Am I locked into a long-term contract?
Not at all. For best results, we usually recommend making a 3 month commitment to paid ads. But our month-to-month contracts make it so you can change course at any time and are always in control of your ad spend and campaign performance.

5. Who We Work With

URL:	www.profitmill.io/**who-we-work-with**
Meta title:	Paid Ads Agency for High-Growth Companies | Profit Mill
Meta description:	We help ambitious PLG startups, B2B SaaS, and service businesses turn ad spend into real revenue. See if Profit Mill is the right fit for your growth goals.

HERO ✅

Grow your B2B business with paid ads

Ready to make paid ads work for you? If you've got the foundation, we'll bring the strategy, tracking, and targeting to turn ad spend into profit.

[Get a free paid ad audit]

SEGMENTS ✅

Stop wasting money on ads that fall flat

Cut wasted spend and low-quality leads, track the right metrics, and see traceable revenue gains with campaigns driven by paid ad experts.

LAUREL
LEAF

SEGMENT #1 [PLG COMPANIES] ✅

Great product but blowing the budget on acquisition? We can fix that.

For product-led companies, attribution is messy, CAC is high, and investing in paid often feels like a gamble. We bring clarity and control with server-side tracking, milestone-based bidding, and strategy designed to turn trial users into long-term revenue.

→ Ideal for: PLG teams with clear PMF and budget to test and scale
→ Results: Lower CAC, better buyer targeting, faster feedback loops

[Learn more about PLG companies] → *Link to PLG Company page*

SEGMENT #2 [B2B SAAS] ✅

Ads that drive sales, not just fill your CRM? We help you sell SaaS.

If you're running a sales-led motion, you've likely paid for more bad leads than you'd like to admit. We help SaaS teams clean up attribution, improve lead quality, and connect ad spend directly to pipeline.

→ Ideal for: Sales-led SaaS companies with high ACV and complex buying journey
→ Results: Better-qualified leads, faster follow-up, clearer ROI

[Learn more about B2B SaaS] → *Link to B2B SaaS page*

SEGMENT #3 [SERVICES] ✅

Struggling to turn clicks into customers? We help you build trust.

For service businesses, it's not about traffic—it's about trust. We help teams close the gap from attention to action by improving lead quality, tracking the online and offline buyer journey, and helping your team close more of what comes in.

→ Ideal for: Lead-hungry service businesses with multi-touch sales cycles
→ Results: Higher close rates, cleaner attribution, better lead quality

[Learn more about service businesses] → *Link to Services page*

WHO WE'RE NOT FOR ✅

LAUREL
LEAF

Are you ready to work with a paid ads agency? Here's how to tell.

Not every business is ready to make paid ads work. We're not the right fit if you're:

- Still testing for product-market fit and haven't found your ideal audience.
- Hoping for overnight results without investing long enough to see performance grow (3+ months).
- Expecting paid ads to be a silver bullet that fixes churn, cash flow, or market conditions.

HERO (JTBD) ✅

Paid ads that drive high-value SaaS leads

Throwing money at expensive leads that don't convert? We help high-growth SaaS teams reach the right buyers, tie paid ad spend to real revenue, and get clear data for faster testing and optimization.

[Get a free paid ad audit]

LOGOS ✅

B2B SaaS companies we've worked with

[Logos]

KEY OUTCOMES ✅

Prove what works before scaling spend

High CPC and long sales cycles can make paid ads feel like an expensive gamble. We replace gut feel with real data, so you can scale spend with confidence.

Reach higher quality leads
We focus on buyers who actually convert, not just click, so your sales team spends less time on dead ends.

Lower cost per sale
By bidding on mid-funnel and offline actions, we help you spend in the right places and get more for your budget.

Achieve positive ROI
With revenue-focused reporting, we show what's working—so you can scale with confidence and align ads with your sales motion.

WHY WE WIN ✅

LAUREL
LEAF

Stop wasting spend and start closing deals

Why paid ads aren't proving their worth for B2B SaaS

1. You're spending a ton just to test ads—but with high CPCs and unpredictable results, it's unclear whether the payoff is worth it.
2. Ads bring in a flood of mixed-quality leads, forcing your sales team to sift through spam instead of focusing on real opportunities.
3. Long sales cycles and offline conversions make it tough to connect your ad spend to actual revenue, leaving you questioning if paid ads are even worth it.

Here's why B2B SaaS teams trust Profit Mill with paid acquisition:

- **SaaS campaign setup**: Target B2B SaaS decision-makers with campaigns built for your sales cycle.
- **Flexible contracts:** Month-to-month contracts keep things agile, without long-term commitments.
- **Multi-channel ads:** Combine Google, LinkedIn, and other paid channel tactics for maximum audience reach.
- **Clear ROI insights:** Track ROAS, CAC, and LTV to align ad efforts with real business impact.
- **Advanced conversion tracking:** Measure offline calls, leads, and sales to connect ad spend with revenue.
- **Performance optimization and Slack support:** Regular performance updates and Slack support whenever you need it.

CUSTOMER STORIES ✅

B2B SaaS brands seeing real results with paid ads

[Case Studies: Corfix, MeetingPulse, Dromo, Castiron, OpticOdds]

FAQ ✅

FAQs

What's the typical CAC for a SaaS business?
B2B SaaS businesses can expect their CAC to be anywhere between 6 to 12 months.

What CRM integration do you support for offline conversion tracking?

In short: we support all of them! Some CRM integrations are easier than others, but ultimately we'll find a way to make it work.

How do you figure out the right budget for testing my paid ads?
We take a close look at your revenue goals and work backwards to decide on a budget that makes sense. This way, you get enough data to see what works without throwing money away on guesswork.

How can I track the return on my ad spend?
We get a full overview of the entire lead-to-sale journey by integrating directly with your CRM. This gives a clear picture of where your ad spend is turning into actual customers.

What kind of support do you provide once my ad campaigns are live?
You'll get real-time help over Slack so you're never left wondering what to do next. Plus, our team is ready to adjust the campaigns based on what we see, helping keep your ads on track.

How quickly can I see improvement in my ad performance with your help?
We can get your campaign up and running in just 1-2 weeks. From there, you'll start seeing early signals like clicks and responses, making it easier to know which parts of your ad strategy need a tweak.

5.2 PLG Companies

URL:	www.profitmill.io/**paid-ads-plg-companies**

Meta title:	Paid Ads for Product-Led Companies | Profit Mill
Meta description:	Turn product-market fit into predictable growth. Profit Mill helps PLG teams lower CAC, clean up attribution, and scale what's working.

HERO (JTBD) ✅

Paid ads that turn trials into customers

PLG companies need to move fast. We'll help you accelerate growth by tracking what matters, managing CAC, and scaling the ads that attract high-value customers.

[Get a free paid ad audit]

LOGOS ✅

PLG companies we've worked with

[Logos]

KEY OUTCOMES ✅

Scale paid ads you know will pay off

Messy attribution. Rising CAC. Uncertain LTV. We give PLG teams the tracking, bidding, and funnel insight to turn free trials into paying customers.

Prove ROI of ad spend

Server-side and event tracking ties every dollar to product sign-ups, usage, or paid upgrades—so you finally see revenue, not just clicks.

Cut CAC by targeting intent

Smart bidding and intent-based keywords focus spend on users most likely to activate and pay, bringing down acquisition costs.

LAUREL
LEAF

Increase customer value

Target enterprise segments early, nurture them with tailored campaigns, and turn self-serve sign-ups into multi-seat, high-value customers.

WHY WE WIN ✅

Growth-stage ads without the guesswork

Why paid ads aren't working for PLG companies

1. **Attribution is messy and hard to prove.** Because users convert through a self-serve model, traditional client-side tracking doesn't cut it. But if you can't track ROI you can't scale spend.
2. **High CAC makes paid ads unprofitable.** But since PLG teams rely on low-friction signups, LTV takes time to prove—which makes it tough to know if your ads are paying off.
3. **Uncertain LTV makes bidding a guessing game.** When you don't know what a good customer is worth, bidding on the right actions is a shot in the dark.

Here's why PLG teams trust Profit Mill to scale their growth:

- **Optimized for PLG buyers**: Track milestones like product signups, usage triggers, and paid conversion—not just leads.
- **Flexible contracts:** Month-to-month contracts keep things agile, without long-term commitments.
- **Targeted audience bidding:** We help you bid deeper into your funnel by targeting users who are most likely to convert—boosting ROI without bloating CAC.
- **Clear ROI insights:** With tools like Segment, PostHog, or GTM, we tie ad spend directly to downstream revenue.
- **Advanced conversion tracking:** Measure offline actions, leads, and sales to connect ad spend with revenue.
- **High-growth mindset:** We move at startup speed and know how to turn usage-based pricing, delayed monetization, and what it takes to turn ad spend into sustained growth.

CUSTOMER STORIES ✅

LAUREL
LEAF

PLG teams reaching record revenue with paid ads

[Case Studies: Durable, Inference, Jungle AI, Runpod, Nudge, Careerflow, Womp, Openpay]

FAQ ✅

FAQs

How do you track conversions if we don't use lead forms?
We implement server-side tracking with tools like Segment, PostHog, or Google Tag Manager to capture events like signups and usage milestones. This lets us tie ad spend to real product engagement—not just form fills.

How do you help lower CAC for PLG teams?
We focus on high-intent targeting and bid on actions that lead to real value—like account signups or usage triggers. We also help refine LTV assumptions so you're not overpaying for clicks that won't convert long term.

We're still figuring out our LTV—can paid ads still work for us?
Yes, but it depends. If you have some early data or strong usage signals, we can work with that. If not, we help you set up the systems to track it over time and bid more intelligently as that data matures.

What kind of budget do we need to start?
We'll help you work backwards from your revenue goals and CAC targets to calculate a smart starting budget. You'll have enough runway to gather real data—without blowing your whole growth plan on guesswork.

Can you help us reach enterprise users in a PLG model?
Absolutely. We use targeting strategies to reach stakeholders earlier in the journey—especially if you're starting to move upmarket or want to seed awareness with decision-makers beyond the end user.

Do you just run ads or do you also help with website optimization?
We go beyond the ads. If your signup flow or landing page is getting in the way, we'll fix it—or collaborate with your team to get it optimized. Better conversion = lower CAC = faster growth.

How fast can we expect results?
We can usually launch within 1–2 weeks. From there, you'll start seeing early signals (clicks, signups, usage) within the first few days—and we optimize based on what the data tells us.

5.3 Services

URL:	www.profitmill.io/**paid-ads-service-businesses**
Meta title:	Paid Ads for Service Businesses | Profit Mill
Meta description:	Selling services? We help you turn clicks into clients. From call tracking to CRM attribution, we connect your ad spend to real revenue.

HERO (JTBD) ✅

Run paid ads that turn into paying clients

Selling a service means selling trust. We help you close the gap (and the deal) by improving lead quality, tracking the online and offline buyer journey, and helping your team close more of what comes in.

[Get a free paid ad audit]

LOGOS ✅

Service companies we've worked with

[Logos]

KEY OUTCOMES ✅

LAUREL
LEAF

More qualified leads. Less wasted budget.

Most service businesses waste budget on leads that never convert. We connect the dots between clicks, calls, and closed deals—so you can see where your spend actually drives sales.

Attract leads that actually close

Target the right buyers and filter out low-intent clicks so your team spends less time chasing and more time closing.

Get full visibility over lead-to-sale journey

Track every qualified lead including phone calls and offline actions so you know what actions are really driving sales.

Shorten sales cycles and lower cost per sale

We help you connect with ready buyers and build trust faster—so your pipeline moves quicker, and your budget goes further.

WHY WE WIN ✅

Build trust that turns clicks into clients

Why paid ads are not serving service businesses

1. **You're not selling a product, you're selling trust.** Buyers can't 'try for free' or 'request a demo' creating a trust gap that ads alone have a hard time bridging.
2. **Inconsistent lead quality gets the side-eye from sales.** A mix of spam, irrelevant, or low-intent leads means the sales team wastes time on prospects that never close.
3. **Multi-touch sales cycles make it hard to know what's working**. Without full-funnel tracking or offline conversion imports, it's hard to tell what ads actually generate real opportunities or revenue.

Here's why service businesses trust Profit Mill to make paid ads work:

- **Built for sales-led funnels:** We optimize your ads for lead-to-sale journeys—not just form fills—so you can track every step between click and closed deal.
- **Expert trust-building strategies:** From social proof to smart retargeting, we help you close the trust gap between awareness and action.
- **Offline and call tracking:** We integrate with tools like CallRail and your CRM to track phone calls and offline leads—so nothing falls through the cracks.

- **Target high-intent audiences:** We refine your ICP, focus on buyers who are most likely to convert, and stop your team from wasting time on bad leads.
- **Flexible contracts:** Month-to-month contracts keep things agile, without long-term commitments.
- **Direct ad spend to the right places:** We help you define the right testing budget based on your CAC and LTV, so you don't overspend chasing the wrong signals.

CTA: Book a call

CUSTOMER STORIES ✅

Service businesses closing more customers with paid ads

[Case Studies: Speaker Labs, FPR Longevity Gym, Mammoth NY, Paraform]

FAQ ✅

FAQs

How do you handle lead quality for service businesses?
We filter out low-intent leads by focusing on the right audiences, conversion events, and signals—so the algorithm gets better at targeting your ideal prospects.

Can you track calls and offline leads, not just form fills?
Yes. We implement call tracking tools like CallRail or Invoca and set up full-funnel attribution, so you can connect every inquiry—online or offline—to revenue.

Our leads take weeks (or months) to close, can you still measure performance?
Absolutely. We map the entire lead-to-sale journey and track conversion events at every stage, so you can still get actionable insights while deals are in progress.

What if our CRM or funnel setup is messy?
No problem. We've worked with everything from spreadsheets to complex CRM stacks. We'll help you clean up your data and set up reliable tracking from day one.

How do you prove ROI from ads when sales cycles are long?
We use lead-to-sale mapping and offline conversion tracking to show where your spend is paying off—so you're never flying blind with your budget.

LAUREL
LEAF

We've been burned by low-quality leads in the past. How are you different?
We prioritize high-intent targeting and don't stop at clicks. We optimize for booked calls, submitted forms, and actual conversations—not vanity metrics.

Do you offer flexible contracts?
Yes. All our plans are month-to-month, so you're never locked in—and we keep ourselves accountable to results, not timelines.

How Profit Mill compares to other paid ads agencies

Looking for someone to scale your paid ads? At Profit Mill we bring nearly a decade of ex-Google experience to help B2B companies grow profitably, not just spend more.

[Get a free paid ad audit]

DIFFERENTIATORS ✅

The biggest difference is our insider knowledge

There are a lot of good paid ad agencies out there. But if you were happy with one of them, you wouldn't be here.

Before starting Profit Mill, we spent years managing ads in-house for Google. That meant working with thousands of advertisers across industries, budgets, and growth stages. This helped us understand what actually works, what consistently fails, and how success is really measured from inside the platform.

We also partnered with hundreds of paid ad agencies. We saw the good, the bad, and the ones that looked busy but didn't actually deliver results. So we built Profit Mill by taking the best practices, leaving the wasted effort, and applying a repeatable framework that drives measurable profit.

LAUREL
LEAF

Here's what that means in practice:

1. Strategy based on insider knowledge, not guesswork
Most agencies rely on limited experience and trial & error. We've been behind the curtain at leading ad platforms like Google, LinkedIn, and Reddit, which means we know how they measure success and which strategies drive profitable growth over time.

2. Paid ad specialists, not marketing generalists
A lot of agencies try to do everything: SEO, web design, content, paid ads. We focus on paid ads for B2B businesses backed by deep platform expertise. If paid ads are your growth lever, you want specialists, not generalists.

3. Communication that matches your speed
Most agencies make you save your questions for the weekly call or charge extra for access. We think open lines of communication are crucial. That's why we give every client direct Slack access for real-time answers and quick feedback, no limits or add-on fees

4. Profit is the KPI that matters
Plenty of agencies send reports full of impressions and click-through rates. But paid ads are expensive, and the only metric that really matters is whether they drive profit. That's why we called ourselves Profit Mill, because if the ads don't pay off nothing else matters.

5. Pricing that reflects value, not bloat
We're not as cheap as a freelancer, but our pricing gives you access to top-tier expertise without the agency bloat. We don't charge setup fees, run fully remote, and invest where it matters—in tracking, strategy, and execution.

COMPARISON TABLE ✅

How Profit Mill compares to other paid ads service options

	Alternative #1 In-house hire	**Alternative #2 Freelancer**	**Alternative #3 Traditional agency**	**ProfitMill**
Strategic experience	*Limited to individual background*	*Usually only worked with a handful of accounts*	*Moderate, but often limited and diluted*	*In-house expertise from Google & LinkedIn working*

LAUREL LEAF

				with 1,000+ advertisers
Execution skill	*Usually marketing generalist, not ad specialist*	*Typically highly skilled in one channel*	*Practiced execution, but spread thin across services*	*Specialists in B2B lead-gen through paid ads*
Communication & availability	*Available full time*	*Limited availability depending on client load*	*Limited access, often relies on scheduled meetings and account managers*	*Always available via Slack for async communication plus regular meetings*
Metric of success	*Revenue focus with internal accountability*	*May rely on vanity metrics*	*Often measure success with CTRs, impressions, volume*	*Profit-focused KPIs with pipeline and new revenue as the benchmark*
Price	*Full salary + overhead*	*Generally lower cost*	*Expensive long-term contracts, often with additional setup fees*	*Package pricing with flexible contracts and no additional setup fees*

8. Profit Studio (WIP)

URL:	www.profitmill.io/**profit-studio**
Meta title:	Hands-On Venture Studio for B2B Founders | Profit Mill
Meta description:	Profit Studio partners with early-stage B2B founders to launch and grow smarter. We bring 10+ years of go-to-market experience—funding, strategy, and firepower included.

HERO ✅

LAUREL
LEAF

For founders looking for more than funding

Profit Studio is a hands-on venture studio for founders who want strategic partners, not passive investors. We bring 10+ years of go-to-market expertise to help you launch, grow, and win—right off the bat.

[Get in touch with Peter]

WHAT IS PROFIT STUDIO ✅

What is Profit Studio?

Profit Studio is the venture arm of Profit Mill. We partner with select founders in two ways:

→ **Angel Investing**: We back the best with capital and conviction.
→ **Startup Studio**: We roll up our sleeves, join your team, and help you grow—fast.

ANGEL INVESTING ✅

Angel investing meets growth expertise

We only invest where we can add value. As angel investors, we back founders we've worked with on paid growth, so we know the opportunity and understand your audience already.

Here's our criteria to invest:

- We've managed your paid media and believe in the long-term potential
- We see untapped marketing upside others miss
- We believe in your founder–market fit and vision

Meet our angel investment: Jungle AI
Jungle's founder had the grit and story. The product was differentiated. And paid media was an under-leveraged channel. We saw the opportunity and backed them—not just with cash, but expertise.

STARTUP STUDIO ✅

LAUREL
LEAF

Co-build your business with the best

Through our Startup Studio model, we join forces with select startups to become your go-to-market team in exchange for equity.

You get:

- Strategy, execution, and iteration across channels
- Access to our full growth playbook (website, ads, funnel, outbound)
- Embedded collaboration and Slack-based communication
- No need to hire a full in-house team
- Real marketing firepower, aligned to your goals

This model works best for:

- Founders with conviction and urgency
- Lead-gen driven businesses (B2B or B2C)
- Companies with product-market fit or strong signals
- Startups ready to scale, but not ready to build an internal team

WHY PROFIT STUDIO ✅

Whatever stage you're in, we'll help you grow

We've helped hundreds of startups—from scrappy bootstrappers to VC-backed ventures—launch and scale paid acquisition for the first time. With 10+ years of experience, including work inside Google's startup incubator, we bring battle-tested GTM strategy and a trusted network of vetted contractors.

Wherever you are in your journey, we'll help you grow—faster, smarter, and without wasting time or budget.

Who we work with

We don't invest in categories—we invest in conviction. But here's what makes us lean in:

→ Lead-gen driven businesses with marketing upside
→ Founders with a strong “founder–market fit” story
→ A differentiated product with signs of early traction
→ A space where we see growth opportunities that others don’t

Industries we’re drawn to:

- EdTech
- MarTech
- SalesTech
- Services that sell online (B2B or B2C)
